Dots & Boxes

Game Rules

1. Players take turns drawing a line between two dots in any row or column.
2. When a player draws a line that completes a box, they write their initials inside the box and then must draw another line. If this line completes another box, the player writes their initials inside that box and takes another turn.
3. After all the boxes are filled, players count initials. The player with their initials in the most boxes is the WINNER!
