

*Arnie's Barn is a 150-year-old barn found right in Arnold Palmer's own back yard in Latrobe, PA. Johnny Morris commissioned local Ozark craftsman Danny Schwartz and his family members to carefully disassemble the barn and its 46-foot timbers, numbering each piece, transporting and re-erecting the barn at Top of the Rock to serve as the golf pro shop and a second restaurant.*

*Some of the timbers from the barn – which included the now extinct American chestnut – are so old, Top of the Rock historians are carbon dating them. When the barn was built 150 years ago, some of those timbers were already well over 100 years old. From Arnie's Barn, guests enjoy magnificent views of the practice facility along with unique memorabilia and golf gear found nowhere else.*
